

ST PIRAN'S

Inspiring Confidence

Science Lab/Classroom Assistant

Person Specification

Expected

- A practical ability and willingness to show initiative in a busy science lab.
- Experience in working in a subject specific area
- The role requires some technical flair but more importantly that you enjoy working with adults and children.
- Good communication skills
- Have a strong capability with different IT platforms and software applications; be able to use the internet to gather information
- Ability to work as part of a team
- To be able to prioritise your work load and show good time management
- Sense of commitment to the values of the school and the Christian ethos
- You will need to be able to prioritise and enjoy learning new things.
- A well-motivated and enthusiastic person who is prepared to play an important role in the whole life of St Piran's School.
- A person who can show initiative and work independently yet also be prepared to work as part of a team.

Desirable

- Have the confidence to work with the various tools and equipment available in the different work areas
- Have a capacity for hard work and to be self-motivated
- Have a good sense of humour!
- Be calm under pressure
