<p>Following all the work that we did in the practice session earlier in the week, this has to go down as a very disappointing performance in that we didn't really compete! The inability to tackle, or even attempt to tackle, really was the key. When we had the ball some of our running was very good, but invariably it was across the pitch as opposed to trying to run forward.</p> <p>More hard work is therefore required on the absolute basics, with a far more determined approach to simply "have a go to compete".</p>
