| <p>We dominated the game and had several chances, just the first half nothing was falling for us or going the way we wanted it to. Against the run of play and one goal in particular a mix up plus a string of mistakes, the boys found that they were two nil down. The second half we continued to apply pressure and the breakthrough came and within 5 mins we were 3-2 up. The boys were so happy that they forgot what they were doing and let them go down the other end and equalize.</p> <p>Overall I am really pleased that they never gave up, and kept on trying and stayed focused. Hanson Martin got man of the match for stepping into defence and dealing with the situation superbly.</p> <p>Great goals from Cyrus, George &amp; Harry.</p> |   |                 |                       |                       |             |            |                    |               |               |                      |
