| <p>The U11Bs have had a mixed season thus far with some narrow defeats and convincing wins. This tournament proved no different. Playing against three A teams it was always going to be highly competitive. After a shaky start, they girls started to focus, which was difficult in 30 degree heat, and made some good decisions when fielding and scored some good rounders. Throughout the tournament they had their highs and their lows, however not once did they sit back and let the mistakes or strength of another team stop them, always encouraging each other and striving to be better. Overall they came a respectable 4<sup>th</sup> and should feel pleased with their efforts. Well done!</p> |  |                      |
