<p>The girls started and finished both games really strongly and passed the ball up the court well, scoring some great goals. The team made numerous interceptions and it was clear to see that we were the stronger team against both opposition. As we were winning quite easily the girls got an opportunity to change around positions to give them the experience of playing different roles. This challenged the girls and took them out of their comfort zones. However they still played amazingly and worked hard on passing and moving. A great match, well done.</p>
