| <p>It was another great performance by the U11Bs on Wednesday against Bishopsgate. They started strong and maintained the intensity, even upping it in the final innings. Their batting was good and they took their chances. Both fielding innings were very good, with all of the girls making well thought out decisions about where to send the ball and communicating effectively with each other. Their confidence and calm under pressure clearly made a huge impact on the Bishopsgate team as they became hesitant to run on beyond 2nd base. It was a wonderful way to finish the season with a group of players who have given their all throughout and made considerable progress.</p> <p>A particular mention must go to Kiran Singh, who not only bowled incredibly well, but managed to score on every single turn. All of the girls in the team commented on how she played, showing how proud they were.</p> | | |
