| <p>This was a game of two very different halves. Unfortunately we started slow and didn't perform to our true potential in the first half and were punished being two goals down at half time. After giving the opposition a spirited and lifting talk at half time, they came out a very different side and quickly brought it back to 2-2.</p> <p>In the first half we didn't even manage a shot on goal, but now in the second half Yateley were defending for their lives, until they hit us on an encounter attack and scored against the run of play, but our players dug deep and equalized yet again, to get a very well deserved point at least. Great finish from Sebastian Canton lobbed over the keeper into the top corner and two good unstoppable finishes from Joe Wooldridge. Overall the second half was outstanding; play like that every week and they would get more results that they deserve.</p> <p>Well done!</p> |  |               |                    |                   |               |             |                           |                          |              |
